

# Statement BSE, TSE, Jatropa

To whom it may concern

## Automated Liquid Handling

Hamilton Robotics, a leader in liquid handling technology, is known for advancing life science and biotechnology industries through reliability and performance.

## Laboratory Products

Hamilton laboratory products offers precision fluid measuring instruments, chromatography products, laboratory electrodes, pipettes and more.

## Process Analytics

Hamilton sensors and accessories are the solution for process analytical measurement systems and offers measuring solutions in pH, ORP, DO, conductivity and cell density.

## Statement

All products manufactured by Hamilton AG are produced from synthetic or manufactured components. \*

Hamilton products and processes do not make use of Jatropa or raw materials of animal or human origin required by EMA/410/01 current revision, at any point in their manufacture and storage. \*

(\* ) Unless otherwise stated in the product documentation

Christian Risch

Vice President Operation (i.V. Director Quality Management)
